WELCOME TO THE GC BUDTENDER GUIDE! LEARN TO COMMUNICATE THE VALUES OF GLACIER

Did you know that **YOU** are a **vital** part of our team, and your role in the dispensary is **essential** to bringing the Glacier experience to life for the customers? *It's true!* This new guide is designed to equip you with **everything** you need to know about Glacier Cannabis—our values, products, & the best ways to communicate them to shoppers.

As a **budtender**, you're often the face of our brand. Your expertise directly influences the customers decisions. Whether they're *new to cannabis* or a *seasoned veteran*, your knowledge and enthusiasm can make all the difference in their choices and experience.

Thanks for making a difference!

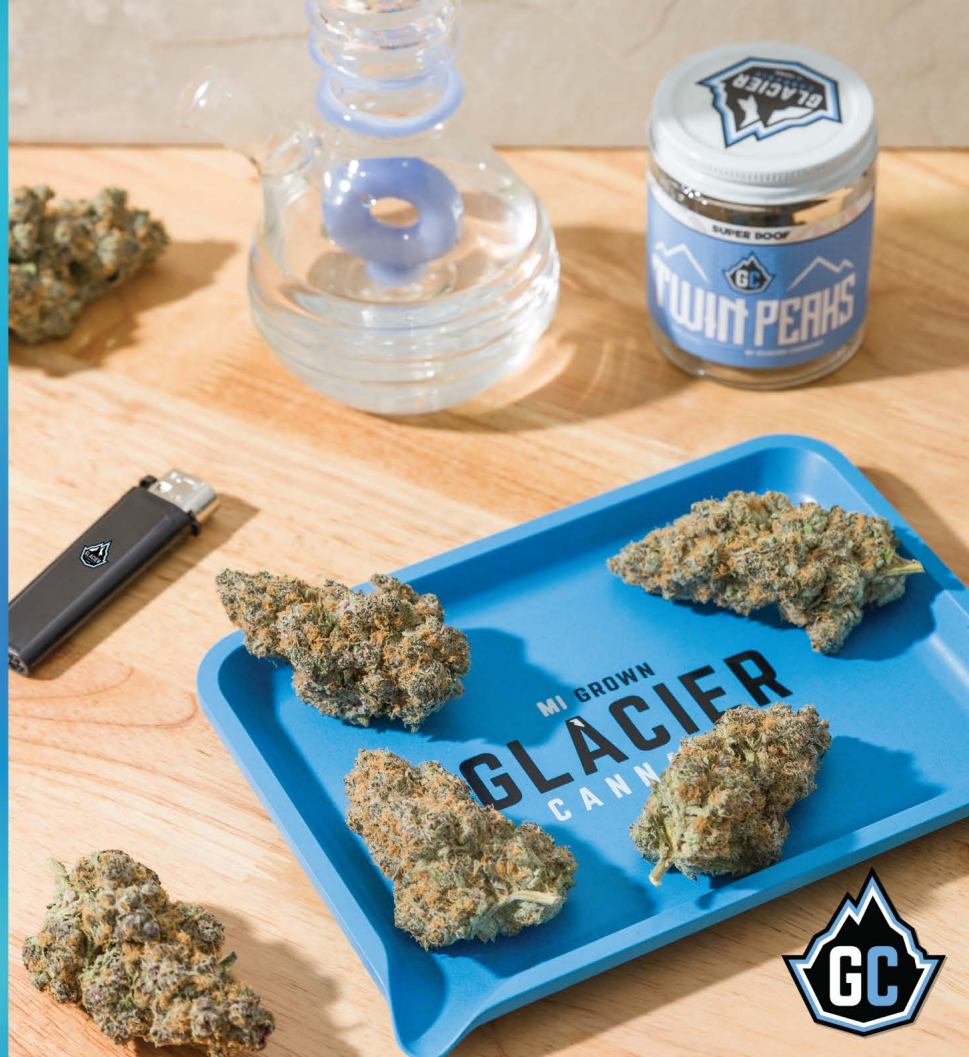

GLACIER

YOUR IMPORTANT ROLE IN OUR MISSION

At **Glacier Cannabis**, we are committed to high-quality, small batch cannabis products that exceed customer expectations. Our mission is to be a **leader in the cannabis industry** by offering products that are innovative, consistent, and deeply rooted in our *ethos of excellence*.

Budtenders bring this mission to life by helping customers find the perfect selection for their needs. *You are their guide* to the product range, and it's your deep knowledge that allows them to trust our brand. Your role is more than just selling — *it's about educating and elevating the customer experience*, ensuring they leave feeling satisfied and informed, confident in their choices.

WHY 'GLACIER' CANNABIS?

TELL CUSTOMERS OUR STORY

Michigan's majestic landscape, sculpted by ancient glaciers, provides the backdrop to **Glacial Farms**, our **cultivation** epicenter. It's a testament to nature's powerful transformation abilities on our ecosystem.

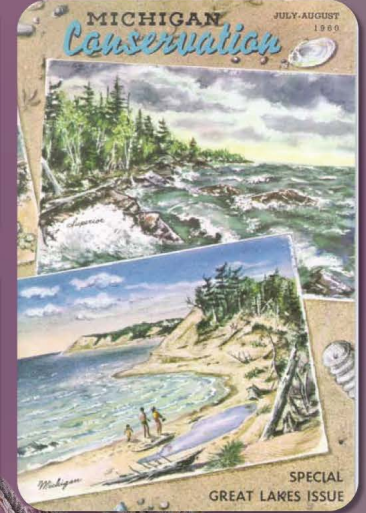

Reference: A Glacier Passed This Way by R. W. KELLEY from Michigan Conservation, Special Great Lakes Issue, July-August 1960, Vol. XXIX, No. 4: Michigan Department of Conservation, Lansing, Michigan.

GLACIER CANNABIS

Imagine millenia ago, **colossal ice sheets** carving out the majestic **Great Lakes** and leaving behind fertile soils, rolling hills & sparkling inland lakes. This **glacial artistry** has created a **paradise** for outdoor enthusiasts and a **treasure trove** for **agriculture**.

MICHIGAN'S LEGENDARY HISTORY

Our homage to this **legacy**? Mixing nutrient-rich **glacial rock dust** into our cultivation, endowing our cannabis with a touch of Michigan's **primeval essence**. With every **puff**, experience a refreshing 'Glacier Pure' finish, an ode to our state's **magnificent past**.

GLACIER PRIMARY VIRTUES

WHAT MAKES OUR PRODUCTS SO SPECIAL?

1. HAND-TRIMMED FLOWER

Glacier is known for our hand-trimmed, expertly curated cannabis. This level of attention to detail ensures the best quality.

Tip for Selling: Explain to customers that, “Glacier’s hand trimming results in better looking, higher quality flower compared to machine trimmed options, which gives superior flavor & better effects.”

2. SUPER POTENT PRODUCTS

Renowned for the high potency, achieved through expert cultivation techniques, carefully chosen genetics, & our proven growing process.

Tip for Selling: “Glacier’s potency is the result of their advanced growing techniques, unique strains, and the dedication of their staff! Their team selects strains for their power & terpenes, then their expert growers take great care to cultivate them to their best potential.”

3. TESTED FOR PURITY

Glacier partners with accredited, third-party labs to test every product for potency, purity, and terpene profiles.

Tip for Selling: “Glacier’s potency is the result of our advanced growing techniques, unique strains, and the dedication of their staff! Their team selects strains for their power & terpenes, then their skilled growers take great care, cultivating them to the best potential.”

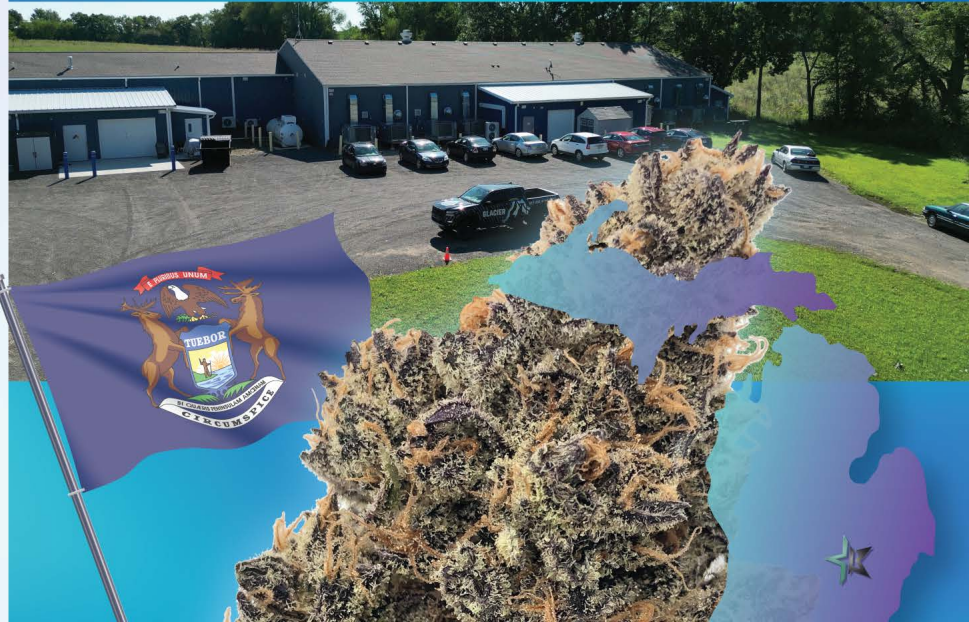

**USE THESE AS YOUR FOUNDATION
WHEN SPEAKING TO CUSTOMERS!**

GROWING LEGENDARY WEED

Glacier’s *innovative grow facility* near Ann Arbor uses a *small-batch* approach with a *rolling harvest* system.

Tip for Selling: Explain how Glacier’s style means that there is “*always something new to explore!*” — Whether you’re a pro toker seeking something unique & rare, or you’re a newcomer looking for a mellow, approachable experience, “*Glacier Cannabis offers an incredible range of products tailored to meet every customer*” which is guaranteed to bring them back to shop for years to come.

“WHY CHOOSE GLACIER?”

1. GLACIER IS STAFFED WITH EXPERTS

Post-harvest, *each plant* is given time to cure to **perfection**. Prioritizing integrity, we **hand-trim** our buds to preserve their potent *pristine nature*, protecting the oily *trichomes* responsible for the *distinct* flavors & effects. Our release of **Cold Snap** even set a terpene content record, proof of our unwavering commitment to high-quality cultivation techniques.

2. GLACIER PUTS PEOPLE OVER PROFITS

Transitioning from **Michigan's caregiver system** in 2019 to the *commercial cannabis* frontier, we've infused years of *hands-on expertise* into every bud we grow. As caregivers, our roots lie **deep** in the understanding of the plant's *therapeutic potential*. We believe in cannabis that we would smoke ourselves, ensuring that our standards are as **high as your expectations**.

3. GLACIER INNOVATES TO KEEP THINGS FRESH

Whether it's Peaks XL 'high times cover' gigantic nuggets, to Classic strains like Green Crack in 2024, if the customer wants something unique, potent, and fun; Glacier has got them covered with several options to keep them happy.

GLACIER 2024 PRODUCT LINE-UP

At the heart of our products is our *pristine & potent* flower. This is our world of **legendary genetics**! Our ultra-clean **exotic & exclusive buds** are available in a huge variety of *styles, strains, sizes & consistencies*.

We cater to every type of *toker*, whether that's a **soccer mom** looking for a quick way to roll **super frosty joints** during their busy day or a **connoisseur** looking for a **gigantic, terpy nug** of their favorite strain to celebrate a new achievement, or just a typical *toker* who loves quality herb without breaking the bank, Glacier Cannabis truly has **something for everyone**.

GC is deeply committed to the art and science of growing in *small batches*. Each **handpicked flower** blooms indoors within the *nurturing environment* of our **small-batch grow rooms**. We consciously limit the quantity of each run, making them *ideal* for nurturing the nuanced growth of our plants. We believe in putting **quality over quantity**, a philosophy that **sets us apart** from large, corporate cannabis operations.

HAND-TRIMMED LEGENDARY FLOWER

WHAT MAKES GLACIER'S WEED 'THE BEST'?

Each **Glacier** growroom houses a *single strain*, ensuring a carefully controlled environment tuned to the **specific needs** of the strain in terms of *temperature, humidity, light, and nutrient feeds*. Our approach allows us to **optimize the growth** and traits of each strain, making each bud refined.

What has Glacier innovated in the field?

Our masterful *planning and growing process* have enabled us to implement a **rolling harvest** system across our many double-tier, small-batch grow rooms. With our system, we are able to harvest a room **every 5 days**.

What does this mean for our customers?

It guarantees a constant supply of *fresh, high-quality* Glacier Cannabis flower, delivering a **consistent experience** that's always potent & reliable.
